Carapau is a 100% Portuguese home deco brand. Create contemporary and high-quality products with focus on sustainable design, color and reinvention of traditional Portuguese materials.

It was created and designed by Rita Faria and Tiago Couto, two Portuguese graphic designers who decided to create a project in parallel with their graphic design studio.

Carapau creates handcrafted home decoration products with high-quality and ecological traditional Portuguese raw-materials which combine ancient erudition with a contemporary design. All products are handmade in their studio in Oporto, Portugal.

CARAPAU also works to protect endangered species and landscapes: 3% of each animal purchase is given back to wildlife conservation organizations. They believe sustainable businesses can help to change the world.

Telling the story of a different Portugal. It's in this spirit that, in June 2013, Laboratório d'Estórias was born: an experimental place for design that aims to draw on the stories of Portuguese popular culture to reinvent traditional objects, using them to tell new stories - and (why not?) to recreate the history of the country.
